FROM

THE STATE COUNCIL,
TONK.

To

HIS HIGHNESS AMIN-UD-DOWLA WAZIR-UL-MULK
NAWAB SIR HAFIZ MOHAMED IBRAHIM ALI KHAN
SAHEB BAHADUR SOWLAT JANG G.C.I.E.,
THE NAWAB OF TONK STATE.
TONK.

Dated Tonk, the _____ *19* .

YOUR HIGHNESS,

We have the honour to submit herewith the Annual Administration Report of the Tonk State for the year 1318 Fasli, corresponding to 1910-11 A.D.

We beg to remain,
YOUR HIGHNESS,
Your most obedient Servants,

Members of the State Council, Tonk.

ANNUAL REPORT

ON THE

ADMINISTRATION OF THE TONK STATE FOR THE YEAR 1318 FASLI.

CHAPTER I.

GENERAL AND POLITICAL.

1. The total area of the State is 16,49,946 acres as in the previous years and the total population according to the Census of 1911 is 3,02,922 souls. The gross revenue of the State for the year under report amounts to Rs 19,20,047 against Rs 19,53,587 including deposits and arrears of Land Revenue. The State does not pay any tribute to the Government of India or to any other state. The final Census of the State was taken on the night of the 10th March 1911.

2. The full name and title of the ruler of this State is Aminud-dowla, Wazirul-mulk, Nawab, Sir, Hafiz Mohommad Ibrahim Ali Khan Saheb Bahadur, Sowlat Jang G. C. I. E. He belongs to the Salarzaie clan of Bonerwal Pathans and is a great-grand-son of Amirud-dowla Nawab Mohommad Amir Khan, the founder and the first Nawab of Tonk.

His Highness is about 64 years of age and has been keeping good health during the year under report.

His Highness has got 9 sons and 12 daughters alive. The eldest of his sons Sahibzada Mohmmad Abdul Hafiz Khan Bahadur is also in good health

3. During the year under report His Hhighness visited Chhabra, Pirawa and Nimbahera Parganas of the State. Details of his tour are as follows :—

First visit to Chhabra

from 30-11-1910 to 11-12-1910.

Second visit again to Chhabra

from 31-12-1910 to 15- 1-1911.

During His Highness' 1st and 2nd visits a through investigation with regard to the arrears of revenue up to 1316 Fasli was made in each and every

village of the Pargana. The total amount of arrears outstanding was Rs 2,11,265 of which Rs 3,911 was realised in 1317 Fasli and a remission amounting to Rs. 1,70,712 was granted by the Durbar. The balance Rs. 36,642 was ordered to be realised by easy instalments of which the first instalment of Rs. 16,598 has been received during the year under report.

Pirawa was also visited and the visit lasted from 26th January 1911 to 19th February 1911.

The result of the investigation of arrears in that Pargana was as given below :—

Total amount of arrears	Rs	6,12,298
Amount realised in 1317 Fasli ...	,,	10,024
Remission granted	,,	4,99,845
Amount recoverable	,,	1,02,429
1st Instalment realised in 1318 Fasli	,,	49,893

The balance was ordered to be realised by easy instalments in 4 years.

His Highness also paid a visit to Nimbahera on 18th April 1911, in connection with arrears of revenue a detail of which is given below :—

Total amount of arrears	Rs	6,13,084
Amount realised in 1317 Fasli ...	,,	21,589
Amount struck off	,,	5,30,048
Amount payable	,,	61,447
1st Instalment realised in 1318 Fasli	,,	64,653

Owing to cessation of rain for a long time in the beginning of the year, a fodder famine was apprehended and Chhabra seemed likely to feel it most, His Highness therefore himself proceeded to that Pargana to devise plans to meet the situation, but happily while measures were being adopted rains fell in abundance and no necessity arose for relief measures.

4. The Political Agent, Haroti and Tonk, visited the Tonk Pargana from 15th January 1911, to 22nd January 1911.

5. The following State Officials also proceeded on tour during the year :—

Rai Bahadur Lala Moti Lal, Revenue and Financial Member visited Chhabra Pirawa, and Nimbahera in connection with the wiping of old arrears of revenue in the months of December 1910, January, February, April and June 1911.

Munshi Zainul Abedin personal Assistant to the Revenue Member also proceeded on tour and inspected the offices of Aligarh Pirawa and Chhabra Nizamats from 15th April 1911, to 9th May 1911.

Munshi Faiz Ahmad Assistant to Revenue Member, visited Pirawa thrice during the year as stated below :—

First Pirawa visit from	25th May 1911	to	16th June 1911	To supervise the work of realisation of land revenue.
Second „ „	30th July 1911	to	9th August 1911	
Third „ „	27th August 1911	to	9th September 1911	

Personnel of the Administration Vide Appendix No. 1.

6. The services of M. Keane Esqr. I. C. S., were obtained on loan from the Government of the United Provinces of Agra and Oudh for the post of Settlement Officer in January 1911, and those of Pandit Vithal Rao as his Assistant in April 1911.

The services of Munshi Zainul Abedin Naib Tehsildar Punjab were obtained from Punjab for Personal Assistantship to the Revenue Member.

Haji Mohammad Farooq Nazim of Aligarh Pargana was appointed Manager of Court of Wards on 24th November 1910, and Molvi Syed Ali Asghar Nazim of Pirawa was sent in his place.

Munshi Saiduddin was deputed to Pirawa as additional Nazim on 11th May, 1911, for the purpose of realisation of land revenue and on return from Pirawa on 5th June 1911, was appointed Assistant to the Revenue Member. There were no changes during the year.

CHAPTER II.

Land Revenue Settlement.

7. The period of Settlement having expired, Mr. Keane was entrusted with the work of revision. A note by him showing the work done by him to the end of the year is printed as appendix XVII—*b*.

Grant of Jagir.

8. Village Jhakaria in Pirawa Pargana which had been resumed was again granted as Jagir to the wives of Sahibzada Omar Khan deceased.

The following Jagirs were granted in lieu of cash allowance in Tonk Pargana during the year :—

	Names of Villages.
To wife of Sahibzada Mohammed Atique Khan.	1. Hatona. 2. Gobindpura.
To wife of Sahibzada Abdul Shakoor Khan ...	1. Jawali. 2. Ibrahimpura.
To Sahibzada Abdul Rahman Khan son of Sahibzada Ahmadyar Khan	Banche in exchange for village Madia Kheri in Nimbahera Pargana.
To Sahibzada Abdul Hafiz Khan	1. Markhera. 2. Bhanwar Kahu.
To wife of Sahibzada Ihsanullah Khan	Borerie in exchange of village Malkhandia.

Resumption of Jagirs.

9. Consequent on the death of the following Jagirdars villages Imam Nagar, Dhondaria and Ahmadullahpura comprising the Jagir of Sahibzada Sidaqatullah Khan deceased and village Mohammad Ganj belonging to the Jagir of Imtiaz Begum wife of Sahibzada Jamal Khan deceased together with villages Mori and Kadarnagar were resumed during the year under report.

Boundary Dispute.

10. No boundary disputes were awaiting settlement in the state.

Tacavi.

11. A sum of Rs 100 was given as Tacavi in village Jakheri in Pirawa Pargana and Rs 1,000 to one Banne Khan in Sohela. According to the Budget estimate of receipts the land revenue demand for the year under report was fixed at Rs 10,11,138 against which Rs. 9,97,372 was realised.

12. The following statement will show the amount of demand and

realisation commencing from 1906 (*i. e.* the year when Mr. Tucker's Settlement was commenced) to the year under report.

Year.	Demand.	Realisation.	Percentage.	Remarks.
1306	8,57,946	7,57,057	88	Famine 1906
1307	8,24,982	3,28,424	40	
1308	8,17,397	6,41,957	79	
1309	8,20,460	5,20,083	63	
1310	8,42,122	7,35,347	87	
1311	7,93,551	6,99,883	88	
1312	7,83,979	6,57,379	84	
1313	8,33,075	5,28,881	64	Bad year.
1314	7,97,010	7,28,254	91	
1315	6,46,927	7,58,712	117	The income was under estimated owing to failure of rains but afterwards the condition improved very much and hence good realisation.
1316	8,42,921	8,81,080	105	
1317	9,89,648	10,75,337	109	
1318	10,07,312	9,97,372	99	

CHAPTER III.

PROTECTION.

Legislation.

13. Appendix II shows the Laws and Regulations in force in the Tonk State.

Military.

14. The number of men in the army and the expenditure incurred during the year on its behalf was 1774 and Rs 1,67,101/4 respectively. The force is mainly employed on watch and ward duties in Sadder as well as in the outlying Parganas. As the men have some knowledge of drill etc., these duties are performed satisfactorily. There are 773 Muzzle loading Guns and 12 swords in possession of the Hussaini Battalion.

Police.

15. The total strength of the state Police is 913. The ratio of the Police Force to the population and area of the State is I to 290 and 1 to 310

square miles respectively.

Khan Bahadur Munshi Ghulam Qadir Khan, Superintendent of Police was dismissed on 16th May 1911, and his work was entrusted to Sahibzada Abdul Hamid Khan, 1st Assistant to the Home Member, State Council, who discharged his duties very creditably. In Sironj and Nimbahera Parganas the Police are generally armed with muzzle loading guns. In other Parganas they are partly armed with antique match locks and partly with Muzzle loading guns, but all possess swords and wear uniforms.

The Police Force at the Head quarters regularly undergoes training in drill under Nur Khan, Drill Instructer.

The details of the annual expenditure incurred during the year under report have been shewn in Appendix IV.

505 Offenders were arrested by the Police during the year under report and 394 were chalaned of which 216 were convicted, 150 were either discharged or acquitted, and 28 remained under trial at the close of the year. The percentage of successful prosecutions was 54 against 53 of the last year.

Appendix IV shows that during the year were 13 promoted 94 dismissed, 83 fined and suspended, 12 convicted in Judicial Court and 3 were rewarded in cash among the members of the Police Force.

The number of persons in Police staff who can read and write is 202.

Appenix VI shows that the amount of stolen property during the year was Rs 15,023/6/9 against Rs 19,046/13/9 of the last year and that of recovered was 13,315/ 12/ 3 against Rs 13534/10/6. The percentage of the recovered property to the property stolen is 88 against 71 of the previos year. This shows that the State Police are making satisfactory progress in the prevention and detection of crimes and that the number of offences in the State is steadily going down which is very creditable to the Home Member for his efficient supervision and patient efforts in raising the status of the most important protective factor of the State.

Village Police.

16. There are on regular village Police in the State. but their duties are performed by the village menials called Chowkidars in Tonk, Aligarh and Nimbahera who are responsible for tracking offenders or otherwise making good the loss. They are called Khuntias in Pirawa and Chhabra and have to report

the commission of an offence at the Thana and assist the Police in tracking the offenders. Some of these menials enjoy free grants of land while others get a cash payment in remuneration for their services.

Criminal Justice

17. The total number of criminal cases reported is 1230 against 1248 of the previous year. The number of persons tried during the year under report was 2456 against 2516 of the last year showing a decrease of 70 while the number of persons remaining under trial was 179 against 89 in the last year. The increase in the number of persons under trial was chiefly in Tonk Pargana and was due to—

1. Delay in getting replies to certain interrogatories issued to foreign territories.
2. The number of criminal cases instituted during October 1911 (the last month of the Fasli year).
3. Rise in the number of offences toward the end of the year owing to famine conditions threatening in the Pargana.

Criminal Appeals.

18. Appendix IX shows that 149 appeals were filed during the year. Sentences were confirmed in 89, modified in 28 and reversed in 17 while proceedings were sent up for revision in one case and remanded for further enquiry in 5. The number of cases remaining undisposed of at the end of the year was 9.

Although no marked improvement has been made, the working of the criminal Administration was however on the whole satisfactory.

Civil Original.

19. There were 1440 original suits instituted during the year compared with 1701 (including pending cases) in the last year. Of these 1235 were disposed of as against 1504 in the last year leaving 205 cases pending as against 197 in the previous year. The decrease of 231 in the institution and that of 269 in the disposal and of 8 in the pending was probably due (1) to some extent to more care being taken in checking false or trifling claims and (2) to the gloomy prospects of the Kharif harvest.

Execution of Decrees.

20. Appendix XI shows that there were 1172 applications for execution of decrees compared with 1297 of the last year. Of these 936 against 1092 were disposed of leaving a balance of 236 pending against 205. These figures when compared with the previous year show a decrease of 125 in the number of applications for execution and that of 156 in the disposal. The total amount claimed in execution during the year was Rs 1,48,266/10/2½ of which the claims for Rs 1,13,658/7/5½ were disposed of leaving a balance of claims amounting to Rs. 34,608/2/9. This shows a decrease of Rs. 10,528/9/10 when compared with the previous year.

Appellate Court.

21. There were 160 Civil appeals against decrees and orders of the lower courts of which 86 were confirmed 34 were reversed and 8 were modified, I was remanded for further inquiry and 3 were compromised leaving a balance of 28 at the close of the year. This year 309 appeals of both civil and criminal cases were disposed of as against 381 of the last year showing a decrease of 72 cases in comparison with the last year. (Vide Appendix XII). This shows a marked improvement in the working of the lower courts in consequence of which the number of appeals has been decreased.

It may be remarked that the Judicial Member had only 102 days in the year for the disposal of regular civil and criminal appeals after excluding holidays and the days on which he had to attend the sittings of the Council and the Peshi of His Highness and thus the daily average of appeals comes to 3. In addition to the disposal of appeals and attendance to the meetings in Council and the Peshi of His Highness the Judicial Member has a good deal of work to do in exercising a general supervision and control over the following Departments.

1. Judicial.
2. Educational.
3. Registration of Assurances.
4. Mohammadan Law Courts Etc.

It is also gratifying to remark that the Judicial Member has made out a reform scheme for the working of the Civil and Judicial Courts and has submitted draft bills of (1) The Law of Limitation of suits, appeals, applications &c.

to amend the existing law which did not meet the requirements of the present day.

(2) The Law of succession certificate to facilitate the collection of debts on succession and to afford protection to debtors.

(3) The Law of legal practitioners.

These enactments were badly needed to the State and the learned Judicial Member has made up the dificiency by putting them up before the Council for consideration and then submission to His Highness for final approval. His patient working and quite manners are gradually introducing with success improvements in the working of the civil and criminal Courts. He deserves every credit for his sound judgement, honesty and keen interest in the discharge of his duties.

Council.

22. There were 68 cases for disposal out of which 50 were disposed of, decisions of thelower courts were confirmed in 34, reversed in 10, modified in 3, and compromised in 3.

His Highness' Vernacular Office.

23. Only 33 cases came up and 17 were disposed of during the year, out of these cases sentences passed by the lower courts were confirmed in 15, reversed in 1, and were remanded in 1.

Registration.

24. Appendix XIV shows that during the year under report 163 documents were presented for registration as against 139 in the year givinng an increase of 24 which appears due to the fact that the public are beginning to appreciate the benefits and value of the Law of Registration in this State. Appendix XV shows that the Registration fee realised during the year under report was Rs 428/12 against Rs 378/2 of the last year. One half of this amount viz Rs. 214/6 was givin to the Registration clerk as proposed last year and the balance was credited into the State treasury without any expenditure on the part of the State on this account under the new system. It is believed that the Department will show better results when the Law of Stamp which was submitted by Judicial Member is formally sanctioned by the Durbar and the existing rules of Registration are amended.

State Prisons.

25. The number of the Jails in the State, remained as in last year, Viz with the exception of Aligarh there is a Jail at the Headquarters of each of the Parganas of the State. Convicts sentenced up to 6 months imprisonment are confined in Pargna Jails the rest are transferred to the central jail at Tonk. Sahibzada Abdul Hamid Khan, 1st Assistant to the Home Member, remained Superintendent of State Jails and supervised the working of the jails under the Home Member. The management of the Jails during the year was in every way satisfactory. Appreciable improvement was maintained in the conduct, and health of the prisoners besides an increase of Rs. 200/. in the net earnings of the jail industries. The question of providing industrious works on a large scale for the prisoners in pargana jails is under consideration of the Home Member. The Durries and felt rugs turned out by the convicts at the central jail maintained the reputation they have already gained. Appendix XIII gives sufficient idea of the working of the jails in the State. There were only 2 ordinary deaths among the prigoners during the year under report.

Municipal Affairs.

26. There is a Municipal Committee at the Headquarters of each Pargana and the sanitation is receiving proper attention from those bodies. A detail of annual receipts and expenditure of each Municipality is given in Appendix XVI of the Report.

Epidemic Diseases.

The plague referred to in last year's report, although diminished very much at the end of the year it did not totally disapear from Tonk City till the end of April 1911. The number of deaths from it during the year amounted to 1230.

It also broke out at Aligarh and Nimbahera about the same time, but owing to immediate evacuation of the houses by the people there the deaths were not many.

Inoculation and rat destruction were also tried with good results at Headquarters of the State.

The disease at Aligarh was imported from Tonk and that at Nimbahera from Jaora and Neemuch.

The Municipal Staff at Tonk deserve much praise for the good work done by them in general and at the time of plague in special.

With the above exception the season was generally a healthy one.

Very satisfactory improvement is being made in the sanitation of the Pargana dispensaries owing to large sums of money (the income derived from liquor contracts) having been placed by Durbar at the disposal of Pargana Committees.

A great improvement has also been made in the public garden very kindly granted by the Durbar last year, a brief account of which was given in the last year's report.

CHAPTER IV.

Weather and Crop.

27. Total rainfall throughout the year under report against averages during the previous five years is shown below :—

Names of Pargana.	Total Rainfall during the year under report.	Average rainfall during previous 5 years.
Tonk	17· 7	22·11
Aligarh	20·83	26· 2
Nimbahera ...	15·26	21·54
Chhabra	19·82	35· 8
Pirawa	23·89	30 90
Sironj	30· 0	37·38

For details please see Appendix XVII.

The following is a detail of the general condition in each of the above six Parganas separately.

Tonk.

Rainfall was deficient. It was however timely and fairly well distributed throughout the Pargana and therefore no great damage on the whole was done to the Kharif Crop. The irregular movements and conditions of the monsoon,

chiefly in the months of July and August caused much anxiety especially for fodder the shortage of which was very marked in some of the Rajputana Parganas. The question of saving the plough cattle was a matter of grave concern for a time but happily the rainfall in the later part of September did much that was so sorely needed and altered the situation by the animating the growth of grass in jungles and supplying moisture for the Rabi sowings.

Tonk was badly affected with plague in the beginning of the year under report a detailed account of which will be found in Chapter VI.

Aligarh.

The general condition of this Pargana was similar to that of Tonk.

Nimbahera.

The cessation of rainfall seriously affected the Khrif crop, Fodder was also deficient when compared with the produce in previous years. Plague also burst out in some of the villages of the Pargana.

Chhabra.

Although the rainfall was below the average, yet it being timely no great damage was done. The general condition was on the whole good and no epidemic disease appeared.

Pirawa.

As in Chhabra.

Sironj.

The rainfall and the general condition was on an average. No disease was reported among men or cattle.

Forests. (*a*) Area:—

28. The proposal submitted last year to afforest 90 square miles of excellent teak and Khair forests in Sironj Pargana received final sanction of His Highness during the later part of the year, and besides some patches in other Parganas too were added in the forest area which was consequently swelled to 1,76,529 bighas equvalient to 1,10,330 acres or nearly 172.4 square miles against 80.6 square miles in the last year, 48, square miles given in

the last year's reorpt being a wrong figure. Patches of 133 Bigas were excised from the existing reserves in the interest of the neighbouring cultivaton.

(*b*) Forest produce:—

The chief products of the state forests are :—

I. Timber e.g. Teak, Sissoo, Bija, Saj, Tinsa, Tendoo, Melia spp. Anogeissus, spp: Acacia spp: and Phoenix Acaulis.

II. Fuel wood and charcoal.

III. Bamboo (Dendro-calamus-Strictus)

IV. Grasses (1) Economic. e.g. Rusa, Moya, and Panni.

(2) Fodder.

V. Honey and Wax.

VI. Minor products: e.g. Katha manufactured out of cutch tree. Lac, gums, fruits of Mohwa and Achar trees tanning materials and building stones.

Note :—Chandan previously reported to be among the chief timber trees was found on a close inspection of the forests to be a cultivated tree and dotted about in abandoned village sites only.

(*c*) Working of the Department :—

Munshi Mohammad Moula Bakhsh B.A., D. D. R.* remained Superintendent throughout the year. He was out on tour in Parganas nearly 7 months to inspect personally the work of rhe subordinates, to instruct them practically into the new methods, introduced last year, of the treatment of the forest and collection of forest revenue and to gauge the results. Restrictions imposed last year on felling of green timber and bamboos were maintained and similiarly brousers have been kept away from the reserves. Seed of Anjan tree (Hardarckia binata) was imported from Berars forest (Baldana Division) to sow on the bare hills and in the grass Savannahs in Tonk Reserves and likewise seed of teak, Anogeissus Latifolia and Terminalia tonicatosa was brought from Sironj forests for the same purpose; but irregularity of the rains prevented any sowing operations being undertaken. After a scanty fall of nearly 5 inches in the beginning it was suspended for nearly 2 months which nipped the grass in the bud in the pastures and put back the Kharif sowings. The cattle was, consequently, much inconvenienced. To relieve the starving cattle Reserves in the most affected parts were thrown open for free grazing and nearly 9,311 cattle got relief in Tonk and Chhabra Parganas. Thanks to the timely rains

the spell ceased before it was too late. Appendices XXIX and XXIX (*a*) show that there was no practically increase in the establishment except that the stipendiary student deputed last year returned successful from Nainital School and was put in charge of forest Reserves in Sironj Pargana. To secure equality in the scale of pay and proportion in the strength of the protective staff in different Parganas 4 guards were reduced. The surveyor's post also remained vacant as no suitable hand could be obtained.

29. Total number of offences reported during the year was 341 against 179 in the last year. The greater number of offences was of illicit felling of timber in Chhabra Pargana and still greater was that of illicit grazing which presumably occurred during the spell of drought. Punishments awarded departmentally to the subordinates were less than previous year and only two guards were prosecuted in the court for receiving illegal gratification. Due to insufficiency of the protective staff systematic fire conservancy scheme could not be launched into practice. Appendix *XXVII* shows the failure to be on the average 8 P. C. of the area attempted but the Superintendent, however doubts the accuracy of the figures given for Sironj Pargana. The man-eating panther, reported last year in Sironj Pargana has been destroyed. Immediate necessity has been more keenly felt of :—

I. A liberal increase in the Budget grants of Forest expenditure to accelerate the important works which have been held in abeyance during the year e.g. compilation of working schemes for forest areas, demarcation, fire conservancy, afforestation of naked hills in Tonk reserves and propagation of lac etc.

II. Increasing the strength and pay of the protective staff and enlisting trained hands in supervising staff.

The new methods of collection of forest revenue, tentatively introduced last year were successful and resulted in an appreciable increase in receipts. Total receipts during the year being Rs 25004/11/5 against Rs 19097/2/1 in the last year, while the total expenditure being Rs 15,577/6/7 against Rs 14,434/-/4 in the last year. The Council review with satisfaction the work of the Department since 1916 Fasli when the present systematic management was introduced and note that notwithstanding the fact that various sources of revenue which naturally tend to the ruin of the forest e. g. grazing of browsers and indiscriminate felling of green timber etc- have been abolished, there has

been a steady increase in the gross and surplus revenues besides the general improvements in the work. The gross revenue of Rs 16,443/10/ in 1916 Fasli rose to Rs. 25,004/11/5 during the year and the surplus revenue of Rs 2,825/-/2 increased to Rs. 9,527/4/10 while the increase in expenditure was very slight of Rs. 1,958/ only. The Council fully recognise the work done by the Superintendent and agree with him that on the fulfilment of the requirements of the present managements there is still a vast room for improvements and expansion of revenue. They take the opportunity to thank the Home Member who very intelligently and carefully supervised the working of the Department and took sufficient pains and interest in solving the complicated forest matters placed before him.

Court of Wards.

30. During the year under report the supervision of the Court remained with the Home Member who secured the services of Haji Mohommad Farooq as Manager of the Court. The principle of farming out the villages of the wards estates, initiated last year was fully and profitably acted upon, and consequent on reduction in the work the services of two clerks were dispensed with in the establishment. Payment of debt was made chiefly by conciliation of the parties. Total debts paid off during the year amounted to Rs. 40,386/2/2 against Rs. 13,566/10/ or nearly thrice much more than in the last year, and total remission secured by conciliaton amounted to Rs. 13,443/11/6 against Rs. 2,319/ in the last year which worked out to nearly 5 annas in the rupee this year against nearly 3 annas in the rupee last year.For these bencficial results 25 more estates were placed under the management having a debt of Rs. 3,44,149/5/ and 2 estates with the debt of Rs. 12,000/- were released leaving under the management at the close of the year 37 estates with the debt of Rs. 4,59,661/14/10.

The court remained self supporting, fees realised to defray the expenses of its admnistration at the rates of Rs. 5 and Rs. 3 per cent on land revenue and cash allowances of the wards respectively, amounted to Rs. 2,331/3/9 while the expenses increased during the year, including the pay of the establishment amounted to Rs. 1,981/ only leaving a surplus of Rs. 350/3/9. The comparison of expenditure to the revenue of the estates administered worked out very slight i.e. nearly 6 pies per rupee against 8 pies per rupee in the last year. The work of the court is carried on very intelligently and on proper lines. The substantial and salutary results achieved during the year, in the opinion of the

Council speak volumes to the credit of the Home Member and the Manager who is an old and experienced revenue official in the state.

Trade and Manufacture.

31. Three new Factories were opened at Tonk during the year :—

(1) Ice Factory.

(2) Flour Mills.

(3) Leather Tanning Factories.

All these factories were badly required - especially the last two, and it is hoped that the Tannery will especially work at a considerable profit. Very attractive patterns of ammunition boots and shoes for the State Forces and the Police were prepared by this Factory on the occasion of the last Coronation Durbar.

Cotton Ginning and Pressing Factories continue to work at Nimbahera.

It is proposed to start Flour Mill at Nimbahera and a Ginning Factory at Pirawa.

The Numdas prepared here continue to be popular.

The question for opening a Railway Line from Saroli village on the Jaipur State Railway to Tonk is under consideration.

Mint.

32. Owing to paucity of Chanwar Shahi copper coin in the market the working of the Mint had to be taken in hand and copper coins worth Rs. 5,000/ had to be minted for the convenience of the general Public.

The Mint worked out at a profit of Rs. 1,524/4/9 to the satisfaction of the Durbar.

Public Works Department.

33. The total Budget allotment for Roads, Buildings and Irrigation works including reappropriation from other Heads and the amount sanctioned in the supplementry Budget amounted to Rs. 95,990/-

A detail showing the expenditure under several heads is given below :—

	Rupees
Establishment	4,619
Construction of new Roads	12,759
Repairs and construction of new buildings	46,556
Repairs to Tanks etc	4,114
Gardening	4,564
Purchases of Tramway Line and implements	23,378
Total.	95,990

The following new Pucca roads were constructed during the year :—

1. From Begam Garden to Chappolai garden.
2. From Chhappolai Garden to Phool Garden.
3. Wazir Sagar Road.

} All about 2¾ miles.

About 43 miles of existing roads were repaired during the year.

During the year the Boarding House at the Mayo College at Ajmer was considerably added to, it being insufficient to meet the requirements of the Tonk students. Under this Head a sum of Rs. 11,161/9·1 was spent.

No new tanks were constructed during the year. Repairs were, however, made where necessary.

As much inconvenience was experienced by cultivators in supplying carts for the conveyance and collection of road materials the Durbar were pleased to sanction a steam Roller for metalling roads and a Tramline of 3 miles for carriage of materials.

The work done by the Engineer Baboo Ram Chandar Rao and his subordinates is deserving of praise. Baboo Ram Chandar was rewarded with a Khilat by His Highness for his good work.

CHAPTER V.

Revenue and Finance.

34. The total assets of the state at the end of 1318 Fasli stood at Rs.

16,95,096/- against Rs 16,95,771/- during the last year. A decrease of only Rs 675 which is too small to require any explanation.

The only points which require mention are-increase of Rs. 75697/- under head 'recovery of arrears' due to efficient working of Nazims and proper supervision on the part of Rai Bahadur Lala Moti Lal, Revenue Member.

There was also an increase of Rs. 18825/- under head 'customs' for which Sahibzada Mohammad Hanif Khan, the Nazim of Sayer deserves credit.

The total expenditure for the year under report was Rs. 14,48,070/- against Rs. 11,53,227/- during the previous year which includes Coronation Durbar expenditure and other unusual expenditures of Settlement work, subscription, census and His Highness' prolonged tours.

Both the Finance and the Revenue Departments of the State were under the supervision of Rai Bahadur Lala Moti Lal who deserves credit for efficient working of both Departments.

CHAPTER VI.

Dispensaries and Hospitals.

35. There are seven Hospitals in the Tonk State-2 in Tonk proper (one for males and the other for females) and one at the headquarters of each of the five Parganas.

Doctor W.S. Desai, Assistant Surgeon, was in charge of the General Hospital at Tonk up to 7th May 1911 and Doctor Miss K. Reed, L.R.C.P. etc. was in charge of Walter Female Hospital throughout the year.

723 operations were performed in General Hospital during the year of which 44 were major operations and 679 minor against 70 Major and 729 minor of the last year. The diminution in the number of operations peformed as compared with the last year was due to Dr. Desai's absence from Tonk.

Doctor Desai was sent to England on 8th May 1911 to pass L.R.C.P., Examination. He is expected back in May next. During his absence the charge of the General Hospital was entrusted to Dr. Miss K. Reed, Lady Superintendent Walter Female Hospital Tonk who discharged her duties very satisfactory.

The services of Munshi Sarfraz Hussain Khan, Sub Assistant Surgeon,

were obtained on loan from the Government at the commencement of the year under report in place of Lala Mool Chand transferred.

Munshi Sarfraz Hussain is giving satisfaction.

Both the Hospitals at the headquarters were inspected by the Political Agent Major Peacock and Miss Peacock who expressed their satisfaction with their working.

The stock of surgical instruments and medicine was quite sufficient to meet the requirements.

The Walter Female Hospital at Tonk has also been doing very good work under Miss K. Reed.

4 Daees were trained during the year.

310 operations were performed at this Hospital of which there were 73 Major and 237 Minor against 67 Major and 302 Minor operations of the previous year. Miss Soshila Sircar was appointed Assistant to Lady Superintendent at the commecement of the year but she resigned having got married and Miss J. C. Luke worked in her place.

There was no change in medical institutions at the outlying Parganas of the State.

There are arrangements for vaccination in all the Parganas of the State. The total number of children vaccinated during the year under report was 4,761 of which 4,472 were successful.

Appendix XXIV will show the total number of births and deaths in the Tonk State during the year under report.

CHAPTER VII.

Education.

36. Full particulars with regard to the Education Department are given in Appendix XXV.

The average attendance of students in the State High School during the year under report was very satisfactory.

The number of students who passed the Matriculation and Anglo Vernacular Middle Examinations from the State High School is as follows :—

	No. sent up.	No. successful.
Matriculation	8	1
Middle School Examination	4	1

The results of this year have not been what they should have been and specially those for the Matriculation Examination were not satisfactory. This was due not to any want of attention or neglect of duty on the part of the teaching staff but to the fact that the School had to be closed for over 4 months owing to the severe recrudescence of plague in the town.

It is gratifying to note that Syed Badrul Hassan 3rd Master passed the B.A. Examination of the Allahabad University during the year under report.

The health of the students was satisfactory throughout the year.

In addition to the State High School, there are two Arabic Schools, three Branch Schools and a number of private aided institutions for primary education. Besides these there are five girl schools which receive pecuniary assistance from the State.

Each of the 5 outlying parganas has a School in which primary education in English, Persian and Hindi is given on behalf of the State.

The total expenditure on the Education Department was Rs 11,562/14/- in Government coin during the year under report. The total number of students was 1072. This shows that there has been a considerable increase in expenditure on educational purposes through the munificence of His Highness who takes keen interest in the education of his subjects as well as in the number of students when compared with last year.

All these marked improvements are no doubt due to the untiring energies of the Judicial member. In a word his patient working in the cause of education peculiar fitness for practical work and sound brain necessarily commands attention and deserves every credit.

CHAPTER VIII.

State Printing Press.

37. One Press at Sironj (Pargana) and one at Tonk worked during

the year; they were maintained by the State to print the State papers and office Forms. During the year 12,71,077 papers and Forms of different sizes were printed and the cost including the pay of the staff amounted to Rs 1,210/ The supervision of the working of the Press remained with the Home member throughout the year.

The Private Printing Press inspite of having no sufficient job to keep the press working the full year continues with steady progress.

APPENDICES.

APPENDIX XVII—*b*.

Notes on the working of Settlement operations during the year ending 31st October 1911.

Survey and Settlement.

1. Arrangements to start Settlement operations in the State were made in the latter part of January 1911 and the two parganas of Tonk and Aligarh were then taken under Settlement while the remaining 4 parganas remained under the Nazims as usual till the close of the year under report.

2. No previous preparations had been made for Settlement and the first question to decide was whether the maps were in a sufficiently good condition to form a basis for work or whether a fresh Survey would be needed. The Settlement Officer examined some villages and had to check lines drawn through others and the conclusion he came to was that the maps needed only careful correction in the great majority of villages. The next question to consider was whether operations should be confined only to the Khalsa villages. His Highness desired to have all the Jagir villages surveyed, and records drawn up for them so that when, as often happens in Tonk, Jagirs fall in, the Durbar may be in a position to have such villages duly assessed to revenue on a proper basis. There can be no doubt as to the wisdom of this decision. These villages were therefore all brought under Survey.

3. The work of collecting the staff was immediately taken in hand. There were 29 Patwaries in Tonk with 7 Assistants and 10 Patwaries in Aligarh, but of these more than half were unacquainted with Survey. Census too was going on in the State all through February and the first half of March and the Patwaries could not in consequence be spared for Settlement duties.

Further more there were no Survey instruments in Stock and these had all to be indented for without delay. It was not till the end of March that a regular start could be made in Survey and map correction. As the time till the break of the rains was limited the small qualified patwari staff had to be supplemented by trained Surveyors from outside to whom was entrusted for the most part the Survey of the Jagir villages. It would have been otherwise impossible to finish the work undertaken. It was not until May that an Assistant Settlement Officer was obtained who was then put in immediate charge of the work.

4. The number of villages in the two Parganas is as follows :—

Pargana.	Corrected.	Surveyed.	Istimrar villages.	Total.
Tonk ...	110	130	10	250
Aligarh ...	54	33	2	89
Total...	164	163	12	339

and the work done briefly was :—

(*a*) The correction of the maps of all those villages which had been surveyed at the last Settlement.

(*b*) Survey of Jagir and Resumed villages.

(*c*) Inking and boundary comparison of surveyed maps.

(*d*) Extraction of areas of surveyed villages and compilation of areas of corrected villages.

(*e*) Preparation of new Khasras on the spot for both the corrected and surveyed villages and preparation of Statistics from them in Office.

(*f*) Preparation of new traces of maps.

5. The map correction work of the 164 villages and the survey work of the 163 villages was entirely finished by the end of July and regular office work started then. The village maps of the regularly surveyed villages were sent to office directly they had been finished in survey and their khasras were written on the spot. After the maps were inked in, the work of area calculation was done by local candidates who had been trained for this purpose.

6. In most cases the Khasras were written up by the Patwaries who knew the work and in some cases by the Survey Amins. After the completion of the field work the staff of survey Amins was considerably reduced in July and about 20 Amins only were retained for office work. The patwaries and Girdawars were trained in office work and with their help the Misal Tartib work started, but before the Patwaries could finish this work, they had to be sent out to the Nizamats to prepare the statements required for the realizations of the ensuing year. Thus the progress of the office work was checked and to finish it several local candidates were trained and appointed temporarily.

7. To meet the requirements of the next year's programme of work the details of which have been already communicated to the Durbar in a separate report it was decided to open Survey Schools in all the four out-lying parganas, where the patwaries, girdawars and several local candidates were admitted and

given the necessary training. A Survey training class was also opened at Tonk for the training of some of the Sahibzadas and the Nazims and Tahsildars whom the Durbar wished to be trained, and another class was opened for the training of local candidates and the Patwaries of the Tonk and Aligarh Parganas. Of the Sahibzadas 5 attended to the work giving promise of success and they are now under practical training. Of the Nazims and Tahsildars, only one Nazim of Tonk and one Tahsildar of Saddar Tonk obtained some training before the class was closed.

Of the candidates and Patwaries trained at Tonk 16 candidates including 5 officials, qualified, but the patwaries who were sent for training could not complete the whole course by the time they were sent to the Nizamat for the preparation of statements of realizations &c.

Of the candidates and Patwaries in the 4 outlying parganas practically all Patwaries received full training in class and have been set to do map correction work in this season in their own circles. The candidates who obtained survey training in the 4 outlying parganas number 23 as against some 80 admitted to the classes.

8. The survey classes were opened on the 1st August and were closed at Tonk on the 1st of October and in the 4 outlying parganas on the 15th October.

The work of map correction in the villages surveyed and settled at last Settlement and that of regular Survey of Jagir villages has been started in the 4 outlying parganas from the 15th October. The candidates who were successful in the training classes have been given preference for Amins work but for difficult villages and tracts some experienced Amins have been appointed. The Girdawars have been appointed Survey Munsarims and for difficult and Jungly portions a few outside trained Munsarims have been nominated.

9. Attestation work in Tonk Pargana was started from the 1st October. For this class of work Patwaries are particularly suitable but it is intricate and delicate work requiring intelligence and experience. The Girdawars, Patwaries and promising local candidates were put with some experienced Munsarims and trained for sometime till they fit for independent work. The progress was thus slow and

by the end of October only 30 villages had been attested. Subsequently as the staff became trained work proceeded more rapidly so much so that at present the final inspection of Tonk pargana is in progress and Aligarh is being prepared for inspection.

10. The total expenditure on Settlement work during the part of the year under report amounts to Rs 37,045-10-1 as shown in the statement attached.

The Settlement Officer is in charge of Sirohi as well as of Tonk. At first each State contributed equally to his pay and the pay of his establishmen but later in view of the difference in the work undertaken for both States it was decided that from the 1st of August Tonk should contribute $\frac{2}{3}$rds and Sirohi $\frac{1}{3}$rd of the pay of the Settlement Officer and the joint establishment.
